## Assembly and Pre-Delivery Service and Inspection:

- Uncrate Unit
- Inspect for shipping damage
- Install handle bars and torque per spec.
- Install front and rear wheels and torque per spec.
- Check transmission oil level
- Check all bolts & nuts for tightness
- Check exhaust to cylinder bolts for correct torque.
- Install all cotter pins
- Do not add electrolyte to battery until 24 hours before delivery.**
- Immediately charge battery per the manufacturer's specifications
- Check and ensure proper throttle operation. Ensure proper throttle cable free-play, cable routing. Ensure throttle operates properly in all steering positions.
- Ensure proper operation of safety tether..
- Drive chain: lube and adjust
- Check day safety light, tail light, brake light, and turn signals (European) for proper operation
- Check and ensure proper tire inflation
- Check starter for proper operation of lock-out. Starter should not operate unless brake is on.
- Check front and rear brakes for proper operation. Adjust brake cables or bleed brakes if necessary
- Purge old fuel from system
- Clean old test fuel from carburetor
- Check for fuel and oil leaks
- Fill with 3 oz. of 2 stroke oil in fuel tank with gas**
- Adjust carburetor setting to 3/4 of a turn out from all the way turned in. Failing to do so may cause engine to fail. It will run too lean.**
- En-sure engine stop switch functions properly.
- Alert customer to DRR's web site for any additional service information. WWW.DRRATVS.COM**
- This information must be attached to the warranty form. Failure to do so will void your warranty.**

I certify that this unit has been assembled, inspected and serviced according to these instructions.
